HASAN AHMED

Engineering Student at SRM Madurai | Developer & Designer
Contact: hasan.developer@example.com | Portfolio: Web, UI/UX, IoT

EDUCATION

SRM Madurai - Bachelor of Engineering
Focus on Software Engineering, Web Technologies, and Embedded Systems

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Responsive Design
Backend: Node.js, Express.js, PHP, Python, REST APIs
Databases: MySQL, Firebase, localStorage, Google Sheets API
IoT & Hardware: ESP8266, ESP32, Arduino, MQTT, Blynk, Sensors, Wi-Fi
Tools: Figma, Git, GitHub, VS Code, Postman

FEATURED PROJECTS

1. Interconnected Solar Street Light System (IoT & Web Dashboard)
- ESP8266-based connected solar lighting concept with battery monitoring and motion sensing.

2. SRM Canteen Web Application (Full Stack Web App)
- Digital food ordering system with dynamic menu, cart, checkout, and order logging.

3. SmartCampus (Student Productivity Suite - Concept)
- Centralized campus platform for study resources, attendance tracking, and digital tools.

4. Habit & Fitness Tracker (Product Concept & UI/UX)
- Activity logging, workout tracking, and personalized goal progression dashboard.
